

## Ladera Ranch: O'Neill Drive & Sienna Parkway Resurfacing

Road / Lane Closures Needed

Crews will be grinding and constructing a new roadway surface (asphalt grind and overlay) on O'Neill Drive and Sienna Parkway in Ladera Ranch for a smoother drive and to extend the service life of roads. **Road / lane closures will be required during working hours, with limited access to residential streets during those times.** Traffic control measures will be used for everyone's safety, however area motorists should expect delays when traveling through the project area.

### WHAT

Improvements will include grinding existing street surface, constructing new street surface, installing new traffic striping and markings, retrofitting access ramps, replacing flashing crosswalks and replacing traffic detector loops.

**Road / lane closures will be required. There will be alternate route detours for drivers and bicyclists.**

Bicyclist detours include outside of work hours due to rough condition of streets until work is completed in those areas. Depending on street width/lanes, crews will try to limit work to one half of the street in order to keep a lane open for drivers. Streets with only one lane in each direction will require full closure in that direction during work hours due to limited work space. Please follow all detour and "No Parking" signs posted.

### WHEN

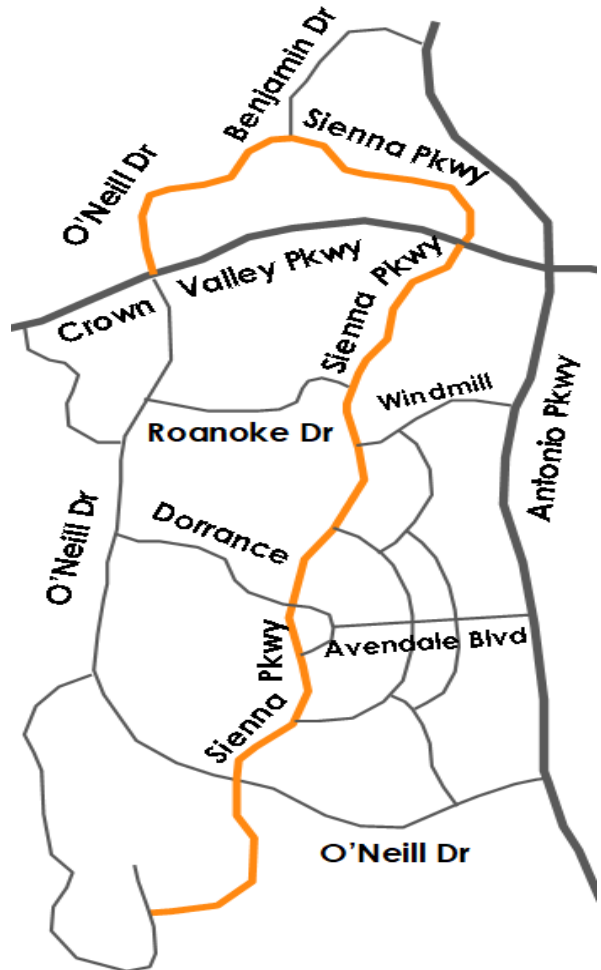

**Anticipated Construction Duration**  
June 15 — August 2020

**Working Day & Hours**  
Mon — Fri, 7:00 am — 4:30 pm

*Schedule is tentative and subject to change.*
