

Pet of the Week

JANE!

This past July, Jane, along with nine of her siblings, were found abandoned in a Lake Forest hotel room. The hotel's room service team discovered two cages full of hamsters and swiftly brought them to the main lobby in search of their owner. Unfortunately, staff were unable to locate the owner, and the hotel manager called OC Animal Care to pick up the tiny ten pack.

Russian Dwarf hamsters are fairly easy pets to care for—which is why they make great starter pets for busy households. Each day our kennel team provides Jane and her little family with tasty snacks and fun enrichment.

Although these little ones have enjoyed their time here at the shelter, they are ready to turn in their room keys and check out. Do you have space at your place for Jane or some of her furry pals? If so, please call 714-935-6848 to schedule an adoption appointment!
