

# ***Pet of the Week***

## ***Pumba!***

Meet Pumba! This happy boy is all smiles after finding his way to OC Animal Care. After much needed veterinary care, TLC, and lots of love from volunteers and staff, Pumba is ready to find his forever home.

In May, Pumba was found roaming the streets of Anaheim in desperate need of medical attention. He was missing half the hair on his body and his skin was clearly irritated, bright red, and small sores present around his neck. Our officers immediately brought Pumba to the shelter. Our veterinary team gave him a complete health exam which showed Pumba was suffering from a severe case of Demodex mange that had been left untreated for quite some time as well as an ear infection. With the help of medication and dedicated staff and volunteers administering medicated baths and skin treatments, Pumba was quickly on the mend!

We don't know much of Pumba's life before he arrived at OC Animal Care. However, we do know that he's a sweet-natured fella who loves playing with his favorite toys and giving sloppy kisses. Our veterinary team estimates his age at about 3 years. Pumba is anxiously waiting for someone to help him write the next chapter in his story. Could that be you? Please call 714-935-6848 to schedule an adoption appointment to meet him!
