

# Pet of the Week

## Frida!

Meet Frida, a 1-year-old tortoise shell mini rex rabbit. A Good Samaritan brought Frida in to OC Animal Care after finding her stray at a park in Fullerton. Frida came in very scared, dirty and not wanting to socialize with staff.

Frida quickly began to warm up for treats, and can be found greeting you at the front of her kennel. Her favorite past time is playing in her purple bunny tube and snacking on timothy hay cubes.

Fun Fact: Did you know that the pouch of fat beneath Frida's chin, known as the "dewlap," will provide a place where the **female bunny** can pull out her silky fur and use it to line her nest. The nest is where she will sleep along with her babies.

Frida is ready to hop her way into your heart. If Frida sounds like the bunny for you, please call 714-935-6848 to meet her!
