

Pet of the Week: **Gabby!**

Say hello to our beautiful Pet of the Week, Gabby! Gabby arrived at OC Animal Care 386 days ago (over a year!) when she came in as a stray. Upon arrival, our Veterinary Staff noticed that Gabby had multiple areas on her body that were swollen, though no puncture wounds were present. It was determined that Gabby had an infection and would need surgery to drain the swollen areas. After draining and cleaning the infected areas, Gabby was able to get a lot of rest and TLC while she healed. We quickly learned that Gabby absolutely loves people, and she enjoyed getting all the extra attention from the medical staff! Gabby's infection healed very well, she's doing great, and she has enjoyed getting to know every staff member and volunteer during her time at the shelter! Gabby is a 5-year-old Pit Bull and is a very smart cookie who would have the best time learning some new, fun behaviors during training with her best human friends! From walks to cuddle time on the couch, this sweet girl loves any and all time she gets to spend with her human friends.

Interested in meeting gorgeous Gabby? Call (714) 935-6848 to schedule an adoption appointment today! Gabby is looking for an adult-only family where she will be the only pet.

Animal ID# A1722739
